SCOPE OF WORK FOR THE REPAIR OF VARIOUS RADIATORS ON HEAVY MOBILE EQUIPMENT (HME)

SERVICES REQUIRED

The contractor shall:

Carry out planned and unplanned repairs and maintenance on radiators on various HMEs and smaller mobile equipment at the contractor's workshop.

Contractors should proof that they have the necessary skilled workforce available and their workshops are equipped to handle these type of repairs.

All the above services to be carried out to Rössing's Health, Safety and Environmental and other relevant standards.

TYPE OF RADIATORS

Rössing has various type of HMEs and mobile support equipment. The repair of these radiators is critical for continuous operations and should be attended to in the shortest possible time.

- Haul trucks 730
- Pit Viper
- CAT graders
- CAT dozers
- Water carts
- Front-end loaders
- Haul trucks 730 - HT workshop
- Generator (Wacker) units - HT workshop

SERVICES

The contractor should be able to perform the following services:

- Clean, repair and pressure test radiator
- Repair oil cooler
- Repair intercooler
- Recore radiator
- Replace gaskets, bolts and nuts
- Replace 912 X top and bottom rubbers
- Clean and repair 830x tubes
- Replace 912x & 75X tubes
- Radiator cap
- Clean & repair expansion tank
- Expansion tank hose
- Gauge level
- Fittings & elbows

The above services should only serve as a guideline.

DETAILS

The contractor shall perform work as per instructions issued under the Services Contract containing the scope as per the tender process. The contractor shall ensure adequate supervision and supply suitably qualified and experienced workforce to deliver the service successfully to Rössing.

STANDARDS

For all work on site you will be required to be familiar with and to apply the relevant Health, Safety and Environmental Standards and Rössing's Engineering Standards.

When applicable, specific additional standards and procedures, such as OEM requirements, will be indicated as work/services are allocated via specific scopes of work/service.

When applicable, written Safe Work Procedures will be referred to and work must adhere strictly to these procedures.

SAFETY

All work will be carried out safely and the contractor shall supply and see to it that personnel at all times wear the appropriate safety clothing. Minimum requirements are safety hats, protective foot wear, safety spectacles and overalls.
