

## Coordinator: Maintenance Recovery

A vacancy exists for a Coordinator: Maintenance Recovery within the Processing Asset Management department, reporting to the Superintendent Major Maintenance. The successful candidate will be responsible to ensure that the long-term routine and non-routine maintenance plan is executed on time, to budget, to required quality, as well as to oversee all long-term routine and non-routine work and manage the output performance of the long-term maintenance by appointed contractors.

### Key performance areas

- HSE – ensuring zero harm in all areas under the incumbent’s control (equipment, tools, machinery and staff);
- People – working constructively with other functions or departments;
- Work Management – ensuring highest possible levels of productivity and efficient work processes;
- Quality - ensuring improvement in the reliability of equipment, improvement of the quality of workmanship, and to increase the uptime for production purposes;
- Planning - ensuring that all maintenance / replacements are in line with the mine’s production plan;
- Contractor Management – ensuring contractor compliance with all Rössing’s conditions, regulations and ethics. Also ensures that the company secures the best price within a required time frame and ensures good working relationships between both parties;
- Cost – ensuring that work is undertaken cost effectively within the approved budget;
- Process Improvement – ensuring that the section operates in the most cost effective manner and that resource utilisation is optimised. Consequently, the incumbent will ensure identification of improvements that result in a more reliable plant.

### Minimum requirements

- Grade 12 with Mathematics and Science plus trade test passed as Boilermaker, Diesel Mechanic, Fitter, or Electrician;
- Five years’ post apprenticeship working experience in the mining and/or processing plant;
- Maintenance experience is required in terms of contractor and project management;
- Qualifications in planning and project management would be an added advantage;
- A valid code BE driver’s licence.
