

Shaping the future

Superintendent: Comminution

An exciting opportunity exists for a Superintendent: Comminution reporting to the Manager Processing. The primary purpose of the role is to lead and control all activities in the Comminution section in such a way that legal-, safety-, production- and people-related targets are met in a safe, cost-effective and efficient manner.

Key performance areas

- Ensure that the activities in the Comminution section have minimum impact on the environment and health of employees;
- Enforce all set standards / ensuring that all subordinates adhere to their personal safety plans;
- Ensure Safe Work Procedures are developed and implemented for all tasks executed;
- Supervise and ensure that subordinates complete their tasks according to set plans; defining clear priorities to ensure production continuity;
- Influence and demand service from Support Services to deliver on the required outputs to meet production targets;
- Manage resources (equipment and people) in a safe and efficient way to achieve targets;
- Ensure optimum utilisation of plant equipment and people by planning and scheduling to meet production targets on a daily basis;
- Develop and implement Standard Operating Procedures and guidelines in the Comminution section;
- Cost management; and
- Continuous improvement.

Minimum qualifications

- Grade 12 with 20 points;
- A recognised B Sc./B Eng./B Tech degree in Chemical / Metallurgical / Mineral Processing;
- Minimum five years' working experience in a processing plant, of which three years should have been in a supervisory position; and
- A code BE driver's licence.
