

Scope title

Provision of Janitorial (cleaning) Services (including Laundry Services)

Context

Rössing Uranium subscribes to the highest health and environmental standards. For this reason all areas of the mine must be seen to be complying with this requirement. The cleaning of all change houses, office blocks and ablution blocks shall be undertaken in accordance to an agreed schedule provided by Rössing Uranium.

Purpose

The purpose of the cleaning agreement is to ensure that the level of cleanliness and tidiness is maintained to highest standards on a daily basis.

Outcome

Cleanliness standard

The level of cleanliness and tidiness must be maintained to high standards on a daily basis. Waste bins must be kept clean and removed at regular intervals. Joint inspections of all ablution blocks and surrounds will be carried out by the Contractor and the Rössing responsible line supervisor on a monthly basis to ensure housekeeping and cleanliness compliance to set standards.

Compliance with good hygiene standards

1. The Contractor to ensure that all cleaning operations meet a good standard of sanitation and any non-conformance will be rectified at the Contractors own cost.
2. Rössing Uranium's responsible line supervisor will carry out regular sanitation inspections.

Housekeeping

Work areas

The Contractor is responsible for keeping the work area in a safe and tidy condition at all times. Rubbish must be placed into the correct bins:

- Yellow – General waste
- Green – Metal products
- Brown – Oily waste
- White – Contaminated waste

Any defects such as leaking or dripping taps, broken locks, defective cisterns, broken tiles etc must be reported immediately to responsible line supervisor.
