

Expression of interest

Provision of Road Dust Suppression Product and Maintenance Service

Reputable and experienced contractors are invited to submit an Expression of Interest (EOI) for the supply of Road Dust Control and Road Surface Maintenance Services to Rössing Uranium mine.

Background

Safe and efficient hauling of run-of-mine material from the Rössing Uranium mine's open pit requires well-constructed and well maintained haul roads. Haul roads need to be dust and spillage free to ensure visibility and minimise tyre wear. Daily road maintenance via road spraying with a dust suppressant product and sweeping will be the activities involved in this project to ensure desirable reduction in haul road generated dust.

Documentation to be submitted for this service

- Full company profile.
- Submit proof and list recent projects of a similar nature and magnitude carried out.
- List of equipment and resources for this service should be submitted.

These EOI documents should be submitted by email to **RUL.Tenders@riotinto.com**

Closing date for EOI submissions is **21 September 2018** at 12.00 local time.

Please access the Rössing website **www.rossing.com** for more information on this EOI.

Tender documents

Following receipt of EOI from companies and a selection of suitable suppliers, these suppliers will then be invited to participate via a web based sourcing engine used by Rio Tinto (ARIBA).

There is no cost to this but companies should have full internet access to be able to participate.

Tender documents with detailed scope of work and all other relevant information will only be accessible following selection and access to this system.
